Table 66: Advance Directives Section (entries required) (V3) Contexts

Contained By:	Contains:
Transfer Summary (V2) (optional)	Advance Directive Observation (V3) (optional) Advance Directive Organizer (V2) (optional)

This section contains data defining the patient's advance directives and any reference to supporting documentation, including living wills, healthcare proxies, and CPR and resuscitation status. If the referenced documents are available, they can be included in the exchange package.

The most recent directives are required, if known, and should be listed in as much detail as possible. This section differentiates between "advance directives" and "advance directive documents". The former is the directions to be followed whereas the latter refers to a legal document containing those directions.
