      I have used the peripheral nerve stimulator in my back for five days.
      While using it I found that I was able to do physical activity
      without pain. However, afterwards for one day, I would feel pain but
      then it would go away. I also noticed that I didn't have to take the
      Vicodin as much. I took 2 less Vicodin per day and 2 less tramadol
      everyday. I have not lain in my bed in a year and a half. I sleep in
      a recliner.
